

Mērsrags – Engure

In the Engure Nature Park

A forest trail surrounded by pine trees leads you from the center of the village to the beach. Next, the Baltic Coastal Hiking Route meanders between a rocky seacoast richly overgrown with reeds and other grasses on one side and wooded seaside dunes on the other side. In some places, the beach is paved with small round stones, in other places you can see grey dunes with a rich variety of plants. Near Bērzciems village, there are large coastal meadows with shoals appearing far away in the sea that are suited for birdwatching. Overgrown seacoast continues up to Abrugciems village, while from Abrugciems to Engure there is a beach.

PRACTICAL INFORMATION

22 km

7–9 h

Mērsrags Tourism information center, **P**

The center of Engure, the intersection of Jūras and Ostas iela, **P**

Mērsrags – Bērzciems – Abrugciems – Engure

Medium

Beaches covered in sand and fine gravel, coastal meadows, small trails, forest roads. Asphalt in the villages, a small section of gravel road.

The coastal meadows can be bypassed using the roads and trails in the villages. The Engure River can be crossed via bridge.

You should avail yourself of binoculars for bird watching, suitable (closed) footwear and walking poles for support.

Between Mērsrags village and Abrugciems village throughout the whole length of the seacoast small roads and trails stretch between the sea and the road (P 131) alongside the coast, they can be used in case of strong wind.
