In some places, the beach is paved with small round stones, in other places you can see grey dunes with a rich variety of plants. Near Bērzciems village, there are large coastal meadows with shoals appearing far away in the sea that are suited for birdwatching. During this route, it is possible to visit the fishermen's homestead "Dienīņas", where you can buy local smoked fish. Also it is worth to see Engure port and Engure Evangelical Lutheran Church.
